I can ~~strike~~ or <u>underline</u> or **bold** (again).

I can make a [Link](#)
or an image:

And quote

> "This is the first time you and I have spoken, moon." - Markiplier

or use quote tags instead of block quote tags: "This is the first time you and I have spoken, moon. "-Markiplier

And of course, the best, audio file and video file embeds

That's all for now. Go Away!
